

# Frank Förster

## Current affiliation:

- PhD student in the Adaptive Systems Research Group at University of Hertfordshire
- Member of ITALK
- Scientific interests:
  - Evolution of Language
  - AI Robotics  $\Leftrightarrow$  Linguistics/Analytical Philosophy

## Academic background:

### *Bachelor of Computer Science (Ulm University)*

- Area of application: Neurobiology
- Area of specialisation: Neuroinformatics
- Bachelor thesis: Folding of secondary structure in RNA molecules (Bioinformatics)

### *Master of Computer Science (Ulm University)*

- Area of application: Philosophy
- Area of specialisation: Neuroinformatics
- Master thesis: Integration of confidence measures in boosting algorithms (Machine Learning)

Apart from research

Music (festivals, crate digging, sharing the knowledge (MOG))
